

Transcript of academic record

Contractor: Mrs. Chuang (Ext. 2028)

1. The actual grading criteria should be consistent with the assessment items and proportions in the course syllabus.
2. The standard of semester grade evaluation should not use a single evaluation item as the total score for assessment.
3. Teachers should record the scores promptly on i-learning platform for students to check after completing the assessment results for each subject to reduce concerns about grading.
